

CP 15 EVOLUTION

THIS ITEM HAS EVOLVED TO MAKE IT MORE CONVENIENT TO CARRY

For more than 20 years, the Cp15 has been the favourite sprayer for users in agriculture, horticulture, parks and gardens all over the world, thanks to its unbeatable durability, toughness and spray quality. The Cp15 Evolution can now be equipped with a revolutionary new ergonomic carrying system with ultra-comfortable shoulder straps and waist belt to work better and longer. It is also fitted with two handles on the tank for easy handling. Its unique membrane pump system ensures a long life for the equipment and maximum convenience in spraying thanks to its flexible pumping.

Technical specifications:

- ✓ Lid with Separate seal and air vent for secure locking
- ✓ Low mesh strainer to filter out dirt with supplementary filter in trigger
- ✓ Wide filler hole to prevent overflow when filling
- ✓ Reinforced hose for greater pressure resistance
- ✓ High resistance GRP (Glassfibre Reinforced Plastic) lance
- ✓ Multi-nozzle adapter for different spraying applications
- ✓ UV stabilized polypropylene tank for a durable yet lightweight sprayer
- ✓ All working parts mounted inside the tank to prevent damage
- ✓ Unique diaphragm pump very resistant to water impurities
- ✓ Pressure control valve with fixed spraying settings (Low & High)
- ✓ Few moving parts of which none are exposed to friction, thus ensuring resistance to dirt in the spray liquid and a low maintenance level
- ✓ Carrying Handles on the tank
- ✓ Adjustable re-inforced lever for left / right hand operation
- ✓ High resistance glassfibre reinforced plastic trigger with filter

Nozzles included: Yellow hollow cone and green anvil

Color	Volume (L/ha)
Yellow	140
